

EXPERIENCE

FOUNDING PRODUCT DESIGNER / PRODUCT MANAGER

NOVINOPATH · REMOTE — NEW YORK, NY Aug 2025 – Jan 2026

- Led end-to-end design of AI-assisted Laboratory Information System (LIS) to digitize anatomic pathology in a regulated clinical setting, designing data-dense interfaces requiring zero-error UX for cancer diagnosis
- Designed role-specific navigation, permissions, and case management workflows for 5+ user roles, translating CAP/CLIA requirements and billing code automation into cohesive, consistent experience across product surfaces
- Conducted field research at clinical labs to observe lab tech and pathologist processes, identifying pain points to reduce turnaround time, lower compliance burden, and improve audit traceability
- Partnered with engineering and data teams to integrate AI-assisted features that supported patent-pending AI diagnostic research
- Led design system adoption, Storybook documentation, and design QA, mentoring peers on systems thinking and collaboration with engineering

PRODUCT DESIGNER

PANDIUM · REMOTE — NEW YORK, NY · CONTRACT Jun 2025 – Aug 2025

- Led redesign of integration platform serving 6,500+ businesses processing 1.5B+ monthly records across integration setup, release management, and tenant management workflows
- Designed onboarding and configuration dashboard flows for both developers and admins, bridging technical and non-technical stakeholder needs in a single product surface

PRODUCT DESIGNER

BANK GREEN · REMOTE Apr 2024 – Jun 2025

- Designed and iterated on an AI-powered policy rating tool, reducing rating time by 40%, validated through usability testing
- Identified and resolved mobile accessibility issues (WCAG 2.1 AA) in site patterns for acronym-heavy content
- Led implementation and documentation of design system, establishing component variants and usage guidelines adopted across product surfaces

PRODUCT DESIGNER

VINEYARD APP CAMP · REMOTE · CONTRACT Feb 2024 – Oct 2024

- Improved education SaaS management process efficiency by 39% through streamlined setup flows and simplified information architecture
- Conducted user testing to validate user flows and wireframes, designing interactive mobile and web prototypes

PRODUCT DESIGNER

ECHODIAL · REMOTE Oct 2022 – Dec 2023

- Owned end-to-end iterative UX design for mortgage insurance underwriter/broker SaaS CRM and autodialer, establishing consistent interaction patterns across platform
- Collaborated with engineers on reusable UI flows to reduce technical and UX debt

SOFTWARE ENGINEER

ALPHASIGHTS, OUI THERAPEUTICS, HIVEIO, RED HAT
NEW YORK, NY Feb 2017 – Nov 2022

- 3 years of React, React Native, and TypeScript engineering work in close collaboration with Senior Product Designers and PMs, bridging design intent and frontend implementation
- At AlphaSights, cross-collaborated with design and engineering teams on design system adoption, defining component APIs to ensure seamless migration across products
- Shipped dashboards and flows that centralized SaaS workflows, supporting enterprise platforms serving millions of users (\$535M annual revenue at AlphaSights, 2M+ clients, projected to save \$26B at Red Hat)
- Set up QA automation framework, saving 80+ hours per release at HivelO

EDUCATION

The University of Texas at Austin

BA, Plan II Honors
BSA, Computer Science

Mento Design Academy

Certificate, Digital Product Design

SKILLS

Design

Wireframing, Prototyping, Product strategy, Information architecture, Design systems

Research

User research, User interviews, Concept testing, Usability testing, Heuristic analysis, Personas, Competitive analysis, User stories

Tools

Claude Code, Figma + Figma MCP, Cursor, VS Code, Claude Design, Miro, Adobe Creative Suite, GitHub, Jira, Webflow

Code

React, JavaScript, HTML5, CSS, React Native, TypeScript

SERVICE & OTHER

AmeriCorps, Citizen Schools

National Teaching Fellow, Data Lead

The Daily Texan

Copy Editor — headlines and design for the Life & Arts page
